PROJECTS

ClassEdge

[Live Preview](#) | [Client](#) | [Server](#)

A full-stack course marketplace similar to Udemy, enabling student enrollment, course creation by teachers, and admin moderation.

- I have implemented efficient pagination for seamless navigation and improved user experience.
- Integrated Stripe for secure and reliable payment processing.
- Allowed students to evaluate teachers, providing feedback for continuous improvement.

Technologies: ReactJs | TailwindCSS | NodeJs | ExpressJs | MongoDB | Firebase

StuddyBuddyHub

[Live Preview](#) | [Client](#) | [Server](#)

A full-stack course marketplace similar to Udemy, enabling student enrollment, course creation by teachers, and admin moderation.

- Teachers can create assignments and provide marks for submissions, facilitating easy management and evaluation.
- Students can submit assignments in PDF or DOC format, ensuring efficient and organized handling of submissions.

Technologies: ReactJs | TailwindCSS | NodeJs | ExpressJs | MongoDB | Firebase

HomeHarbor

[Live Preview](#) | [Client](#)

A comprehensive real estate platform with a user-friendly front-end, secure authentication, detailed statistics, property listings, advanced search, and user profiles.

- Implemented sophisticated search filters for property listings to enhance user experience.
- Designed intuitive user profiles to manage personal information and track property interests.

Technologies: ReactJs | TailwindCSS | Firebase | HTML | CSS | JavaScript
